

## **Main Line Health System Clinical Informatics Leadership Opportunity**

Main Line Health is suburban Philadelphia's most comprehensive healthcare resource, offering a full range of medical, surgical, obstetric, pediatric, psychiatric and emergency services. Forming the core of Main Line Health are four of the region's most respected acute care hospitals—Lankenau, Bryn Mawr, Paoli and Riddle—as well as one of the nation's premier facilities for rehabilitative medicine, Bryn Mawr Rehab Hospital.

We currently have a full time opportunity available for a Director, Clinical Informatics to join our team.

This position is an important operational clinical leadership position that supports the MLH multi-year health Information technology/EHR strategic plan. The Director is pivotal in representing the nursing and other clinician input, policy, and preference for clinical applications, as well as managing clinical informatics resources during design, implementation, and adoption of clinical applications throughout the organization. These applications cross both enterprise information systems as well as clinical niche systems that support the EDs, NICUs, and peri-natal areas. In addition, the Director is responsible for assuring standard approaches to clinical documentation and compliance with design of clinical documentation systems that support regulatory and patient safety requirements.

## **Job Requirements**

Current license to practice nursing; eligibility to apply for licensure in the Commonwealth of Pennsylvania

Bachelor's Degree in Nursing or health related field from an approved College or University

Minimum five (5) years experience in progressive nursing leadership roles in a health care organization

Strong Project Management experience

Clinical Management experience preferred

Multi-hospital System, acute care experience preferred.

*Master's degree in nursing, clinical specialty, management, or nursing/health informatics preferred*
